## FAREWELL OF MANA WIDEMANN

Mana Widemann gave a delightful dinner and dancing party last evening at the Hawaiian Hotel as a farewell to his friends. He leaves on the Alameda tomorrow for San Francisco, after a long stay in Honolulu. At the dinner Mr. Widemann's guests were: Mr. and Mrs. H. A. Allen, Mrs. Eugene Field, Miss Macfarlane, Miss Nellie Kitchen, Captain Herriman and Dr. Nelson. The dinner was served on the Ewa lanai, the color scheme being mostly in yellow. Yellow blossoms were placed about the table in bowls and festoons, the latter arranged so that they would about the plates. Souvenir fans, tied with large bows of yellow ribbon, were carried away by the guests.

At 9:30 o'clock the guests for the dance came, and shortly before 10 o'clock Mr. Widemann chose his partner for the initial waltz, and to the singing of Hawaiian melodies the dancers whirled away in its mazes upon the Waikiki lanai, which was fringed with a profusion of potted palms and cocoanuts. A large punchbowl was placed on the Ewa dining lanai. Among those present were: Mr. and Mrs. Harry Macfarlane, Mr. and Mrs. C. Conrad, Mr. and Mrs. E. Faxon Bishop, Miss Jennie Giffard, Mrs. Mary Gunn, Miss Gardie Macfarlane, Miss Helen Macfarlane, Miss Lady Macfarlane, Mr. and Mrs. George Smithies, Miss Gertrude Bates, Dr. and Mrs. Herbert, Mrs. Nott, Miss Sargent, Mrs. George Macfarlane, Mr. and Mrs. Lake, Mr. and Mrs. H. A. Allen, Mrs. Kitchen, Mrs. Eugene Field, Major Potter, Walter Dillingham, Isaac Dillingham, Nelson Lansing, Ernest Ross, Mr. McInerney, Mr. Lowell, Clifford Kimball, J. M. Monsarrat, Fred Grimwood, Edmund Stiles, Southard Hoffman, Captain Herriman, Dr. Nelson.

## WATER SYSTEM FOR LAHAINA

Bids will be opened next Monday for installing the piping for the water system at Lahaina, Maui. Tenders will also cover the repair of the old reservoir near Lahaina-luna school and the construction of a new reservoir about a quarter of a mile above Pioneer Mill near the soda works. There will be approximately 20,000 feet, or about four miles, of piping to be laid.

The Lahaina-luna reservoir can, without much trouble, be converted into a reservoir can-z:IA cmfwp fwyp to a serviceable institution. Being at a high elevation on the slope of the mountain, it will be the first into which the water will flow, the water being diverted to it through a ditch or flume. From this reservoir the water will descend to the second reservoir, which will be at just such an elevation as to insure force for fire and other purposes. From the reservoir a main line will be laid down to the road by the mill to the town. In Lahaina the three principal pipes will be laid on Front street and the two streets back of it, running parallel with the shore line.

The last legislature made an appropriation of \$31,000 for the Lahaina water system. The pipe will cost about \$10,000, which will leave a sufficient margin to ensure first class work in every particular. A local contractor who has looked over the ground in order to more intelligently bid for the work said last night:

"The greatest difficulty a contractor will encounter will be in laying pipe near and above the mill. Solid rock appears just below the surface and an immense amount of blasting will be necessary. Work in the streets of the town will be easier as there is less rock."

Nearly every legislature for the past fifteen years has appropriated money for a water system at Lahaina, but for various reasons, chiefly a lack of money, the work was never carried out. In the meantime water has been obtained from surface wells.
